First Aid and Emergency Response Kits for the Government Sector

DC Safety offers government clients high volume manufacturing of custom designed first aid, safety, and emergency response kits.

Hauppauge, NY January 6, 2010 – DC Safety, longtime Tier-1 supplier of first aid and mobile preparedness kits to the OEM auto market, now offers its custom safety kit design and manufacturing capabilities to the government sector. In addition to providing emergency preparedness kits to federal and international relief organizations, DC Safety can address state and local 72 hour disaster preparedness requirements.

DC Safety products include first aid kits, survival kits, shelter kits, sanitary and hygiene kits, dignity kits, and various disaster relief kits. Rapid design and prototyping capabilities allow DC Safety to customize based upon particulars of specific emergencies and unique requirements due to geography and climate. Flexible manufacturing and volume sourcing allows DC Safety to excel at both single surge orders and ongoing multi-year programs. Worldwide relationships allow timely delivery and efficient logistics across the globe. DC Safety provides assurance of quality and financial stability, having been vetted, approved and registered as a vendor/supplier for the US Government as well as multiple UN agencies.

DC Safety has a long history serving large customers such as Toyota, Nissan, Mercedes Benz, Honda, BMW, American Red Cross, and other companies that have strict quality standards. ISO9000 certified Quality Management System ensures that quality product is shipped on time, every time.

About DC Safety

DC Safety is the leading supplier of custom-designed and integrated first aid kits, emergency preparedness and convenience kits for the automotive, transportation and other OEM markets. The company is uniquely positioned to satisfy the dual requirements of both the Tier 1 OE automotive supplier and medical device manufacturer.

Through operational excellence DC Safety consistently delivers to demanding high volume applications, conforming to strict specifications in packaging, material, content, and branding. The company is ISO 9001 Certified, ISO 14001 Certified, and ISO/TS 16949 Compliant. Kits meet all Federal and Motor Vehicle Regulations and Specifications. DC Safety is a U.S. FDA registered establishment with operations fully compliant to US FDA-GMP. It is a Health Canada licensed establishment, and supports global standards MDD Directive 93/42/EEC and ELV 2000/53/EC. It is EDI capable, and US EPA initiative and RoHS compliant.
